

Troublemaker

Grizfolk

If I could love you in the right way I wouldn't let you down before I go
I woke up in a black haze, tomorrow I'll be plowing through the snow
Your heart is strong, your back is made of gold
These lies don't work and these ties are getting old
Can I put you in my pocket and save you for later?
Cause you're too good to lose, you're the flavor I savor
Can I put you in my pocket and save you for later?
Cause you're the trouble I want, you're my troublemaker
You're my troublemaker
You're my troublemaker
I chased you for a lifetime if you leave me with a thrill I can't contain
With emptiness by my side I'll always have a place to hide the pain
Your heart is strong, your back is made of gold
These lies don't work and these ties are getting old
Can I put you in my pocket and save you for later?
Cause you're too good to lose, you're the flavor I savor
Can I put you in my pocket and save you for later?
Cause you're the trouble I want, you're my troublemaker
You're my troublemaker
You're my troublemaker
The trouble in you is the trouble in me
The trouble in you is the trouble in me
I know it's trouble, I love it, if you give it, I take it
Cause you're the trouble I want, you're my troublemaker
Can I put you in my pocket and save you for later?
Cause you're too good to lose, you're the flavor I savor
Gonna put you in my pocket and save you for later
Cause you're the trouble I want, you're my troublemaker
Can I put you in my pocket and save you for later?
Cause you're too good to lose, you're the flavor I savor
Gonna put you in my pocket and save you for later
Cause you're the trouble I want, you're my troublemaker
