

# Orangutang

Paul Balancio

You are making me want to  
Do the things that I don't even want to  
You take everything I know  
Even while there is nothing else to know You take everything for granted  
Think you know everything until it lasted  
You are making me crazy  
Watch your tongue every single word The light is always in your world  
Don't make it seem like you could turn  
The things you say and what you know  
Just do it with a single word  
Everybody do the orangutang  
Everybody do the orangutang  
Everybody do the orangutang  
Everybody do the orangutang You are making me want to  
Say the things that I don't even want to  
You are so self-conscious  
Nothing good has ever happened  
Looks like if I was a young one  
Never want to see your face if you had one  
No way I won't even like you  
Bite my tongue before I say a word
