

Work for It

Jane Zhang

[Verse 1]

Shock my body

Light up the fire

Can you ignite it

Turn up the flame on itGet it started

Pull me in close

I want you on me

Show me why you want it[Pre-Chorus]

Walk up to my session and

You know I'm turning heads

Got your eyes all on me but

You too proud to beg

You keep throwing signs

But I'm not a psychic

If you really want it

Better get it if you can[Chorus]

You keep sending me signals

It's like that subliminal

My body's talking

Without words

I know you feel it too

Elephant in the room

The energy's coming throughBut imma make you work for it

But imma make you work for it

But imma make you work for it

Aaa work for it

Aaa work for it

Aaa work for it

Aaa but imma make it work for it

[Verse 2]

Temperature's rising

I feel the heat

Somebody hit the siren

Turn up the flame on itGet it started

You're all I need

I want you on me

Show me why you want it[Pre-Chorus]

Walk up to my session and

You know I'm turning heads

Got your eyes all on me but

You too proud to begYou keep throwing signs

But I'm not a psychic

If you really want it
Better get it if you can[Chorus]
You keep sending me signals
It's like that subliminal
My body's talking
Without words
I know you feel it too
Elephant in the room
The energy's coming throughBut imma make you work for it
But imma make you work for it
But imma make you work for it
Aaa work for it
Aaa work for it
Aaa work for it
Aaa but imma make it work for it
