

South

Galimatias

Look me in the eye Ima take it slow
River running high when I dive down low
I can go for miles water lets me grow
Ima have you feeling like you fly mid air
Slowly getting lost but you do not care
Send you to the stars as you pull my hair
Lover you'll forget about your low mood
Ima wander south and make you feel good
Traveling your body as a prelude
Lover you'll forget about your low mood
Ima wander south and make you feel good
Let me taste your body like it's soul food
The tide is high
You don't need to tell me nothing girl just turn off the light
I might need a regulator when I go for the dive
The desire made you switch to your most primitive mind
No sin, no sin
Call it meditation when we both unravel within
Feel the calm before the storm as is my tongue on your skin
In between your breathing I can hear the drop of a pin
Cocoa body wash you know you smell nice
Bring your light upon me like the sunrise
Bet I burn my tongue you're like a hot spice
Roll over my body like you want more
Roll on me like water on the seashore
Let me feel your body I want you raw
The tide is high
Got the river running high in the canyon below
I let my tongue travel to the end of the road
Until you reach the peak I won't ever let go
No sin, no sin
Call it meditation when we both unravel within
Feel the calm before the storm as is my tongue on your skin
In between your breathing I can hear the drop of a pin
