## Nicky Romero & StadiumX

I was stuck in the dark  
You pulled me trough the doors that you opened  
I held on my heart to follow you  
Now I am golden  
So before we see the sun is up  
Hold me in a dream  
What a moment for the both of us  
Only you and me  
Take me out show me the lights  
Take me out tonight  
Take me out show me the lights  
Take me out tonight  
You're my key to the city  
Key to the city  
You're my key to the city  
Key to the city  
You're not afraid to let me run into the madness  
Carry me while the night is young  
I'm feeling the magic  
So before we see the sun is up  
Hold me in a dream  
What a moment for the both of us  
Only you and me  
Take me out show me the lights  
Take me out tonight  
Take me out show me the lights  
Take me out tonight  
You're my key to the city  
Key to the city  
You're my key to the city  
Key to the city
