

Frequency

Dawn Richard

(Verse)

Static when we touch
So magnetic when we love
Inside there is a rush
So you're bloody

Don't pull the plug(Bridge)

Love it when you make a difference

Don't be afraid of the distance
I don't wanna lose the frequency
I don't wanna let the feeling leave
Rise away to hit the landing
Get the sounds of the space and
I don't wanna lose my frequency
I don't wanna let the feeling leave

(Chorus)

Tell me your first sign of love
(Tell me your first sign of love)

I want you to hear the way you make me feel
When you turn me on

Take it high, til you get it right (til I get my...)

I can feel it near, frequency is real

Way you turn me on(Verse)

Vibrations set the tone

Stimulation makes it flow

Your signals find a hard room

Send a message, make it known

(Bridge)

Love it when you make a difference

Don't be afraid of the distance

I don't wanna lose the frequency

I don't wanna let the feeling leave

Rise away to hit the landing

Get the sounds of the space and

I don't wanna lose my frequency

I don't wanna let the feeling leave(Chorus x2)

Turn it on, first sign of love

I want you to hear the way you make me feel

When you turn me on

Take it high, til you get it right

I can feel it near, frequency is real

Way you turn me on
