Catch disease now it started spreading  
She start to seek penicillin, she's dying Mercy please her life she begging  
When she here to da morgue she heading  
Seh she broke out at di age of seven  
She dancing before she reach eleven One man can't satisfy her  
She needs more wood for da fire  
Sex price getting higher, a more money she require  
House, car, and land, she desire  
So from di prostitution work she won't retire  
Flames and fire
