

# Jaded

## Drake

Ayy, yeah  
Dogs on this side, dogs over on this side  
YeahLeavin' me (leavin' me)  
Dippin' out on me (on me)  
Already got what you needed, I guess  
Quickly (quickly) learned yourself through me (through me)  
Already gave you what you needed, I guess (ooh, yeah)  
I guess (yeah), yeah  
That's why I'm not with nobody (ooh, yeah)  
'Cause I don't wanna hurt nobody (ooh, yeah)  
Did it over text, didn't call me (ooh, yeah)  
Still got love for you, mami  
I know you wanna be somebody  
Even if you gotta leave somebody (body), yeah  
Yes, I'm hurting, yes, I'm jaded (jaded)  
Most of these things I don't wanna say (jaded)  
I wanna be around while you chasin' (while you chasin' it)  
You wanna hit me up when you make it  
You'll try and come back when you famous  
I always want the truth, but it's dangerous (dangerous, oh)  
You got somethin' real, not basic (ooh, yeah)  
You wanna get with me, stopYes, I'm hurting, yes, I'm jaded (jaded)  
Most of these things, I don't wanna say (say)  
I wanna be around while you chasin'  
(Wanna be around, wanna be around)  
You wanna hit me up when you make it (ooh, yeah)  
You'll try and come back when you famous  
(Back around, back around)  
I always want the truth, but it's dangerous (dangerous)  
You got somethin' real, not basic  
You wanna get with me, stop (playin')  
Yeah  
Dogs on this side, dogs over on this side  
(Ooh, yeah, ooh, yeah, ooh, yeah)Ayy, told me about all your insecurities, for what?  
Dragged me like two hours to your family's house, for what?  
Said you need some time but I should stick around, for what?  
Always felt like stickin' 'round's the same as bein' stuck  
And like guns with the inkin', you're gettin' under my skin  
Pretty little young thing (young thing)  
Had a nigga convinced, got me too excitedYeah, you played me, you played me, you played me  
Low, down, dirty, shameful, crazy  
I need to know how the new nigga you got does the same thing

I do for a living but is way less wavy  
How you even managin' to keep straight faces  
In all the pictures that I seen lately  
Lord knows you still look amazin'  
That's besides the point I'm makin'  
You're way too opinionated  
Have to force it, have to fake it  
You have potential, I coulda shaped it  
You went and caved in (ooh, yeah)  
We coulda waited, I wasn't rushin', differences in ages  
You're old enough, but you're still a baby  
You've shared stories where you did amazin'  
Things to be loyal, things to be patient  
That was before me, I musta changed it  
Shifted your focus, lens lookin' jaded (jaded) Most of these things I don't wanna say  
I wanna be around while you chasin' (while you chasin' it)  
You wanna hit me up when you make it  
You'll try and come back when you famous  
(Back around, back around) Dogs on this side, dogs over on this side  
You wanna get with me, stop (playin')
