

# Together Forever

## L.T.D.

Live your whole life lookin' for somebody  
We're all lookin' for that special kinda love  
I think you are the one for me  
Our love is strong like L.T.D.  
And I think that's  
Just how happy we can be Let's live our life Together Forever  
Hey girl you make me feel so good  
Baby I really wish we could  
Could really get it all together  
Let's fall in love  
Every time I know I'll be around you  
I just seem to fall to pieces all inside  
You're so much better than the rest  
I know our love will stand the test  
Can't you feel what we will share will be the best Let's live our life Together Forever  
Through toil and strife Together Forever  
Hey girl you really start my day  
You know the right things to say  
Feel like I'm blessed from above  
Let's fall in love Baby, please don't turn me down  
If you feel these things I'm feelin'  
Let me know  
Cause my love just can't wait  
Think I'd like to set the date  
'Cause this feelin' that I'm feelin' sure is great  
Let's live our life Together Forever  
Through toil and strife Together Forever  
Hey girl you make me feel so good, yeah  
Hey baby, I really wish we could, yeah  
Could really get it all  
Together hey let's fall in love  
Hey girl you really start my day  
You know the right things to say  
Feel like I'm blessed from above  
Let's fall in love Live your whole life lookin' for somebody  
We're all lookin' for that special kinda love  
I think you are the one for me  
Our love is strong like L.T.D.  
And I think that's just how happy we can be  
Let's live our life Together Forever
