

Take Me to the Hospital

The Faint

Hold my hand its shakin' bad, I'm going to the doc
I pay him he'll fix me up, I think I've got enough (enough-enough-enough)
Ambulance? no, costs too much. we'll take a van.
If they can't fix me no one can, if they can't fix it no one can! Want you to take me to the H, take
me to the O
Want you to take me to the S, take me to the P
Want you to take me to the I-T-A-L
Want you to take me to hospital, H O S P I T A L Now I'm losing blood from my veins, they're
slowly emptying
I'm bothered by this crimson red, to the color of blood...
To the color of a B, the color of a L
To the color of a O, the color of O
To the color of a deep crimson red
From a little bitty accident, A C C I D E N T
I scraped up my face, bounced my cheek on the floor
Cause anything worth doing is worth getting hurt for
I've made no mistakes, I'm never learning from that
I've got no regrets, I wanna do it again! do it A-G-A-I-N! So you to take me to the H, take me to
the O
Want you to take me to the S, take me to the P
Want you to take me to the I-T-A-L!
Want you to take me to hospital'Cause it's the color of a B, the color of a L
To the color of a O, the color of O
To the color of a deep crimson red
From a little bitty accident
You better take me to the H, take me to the O
Want you to take me to the S, take me to the P
Want you to take me to the I-T-A-L!
Want you to take me to hospital
