

# Time For Crime

## Orion

He comes from the past  
Travels to our time, time for crime  
I tell my friends it's only a fling  
But I've fallen for the leader of a time crime ring  
Lights flash, hearts break  
Can they catch up to our getaway car, and take him away?  
Lights flash, police chase  
They drop me home, but they drag my baby away  
I know they say  
He's from the wrong side of time  
You better keep me away from the window  
I'm not waiting for him to materialize  
Lights flash, hearts break  
Can they catch up to our getaway car, and take him away?  
Lights flash, police chase  
They drop me home, but they drag my baby away
