

Take a Chance (feat. Wale)

Monica

[Featuring: Wale][Wale:]

A couple of things

This is as honest as I could be

My sole objective is to love listen and respect her

From this very second I'm just saying that

She's special enough for me to want to protect you

And guess you don't love me[Monica:]

I'm sure you did a lot of things

Before I got in the picture

Didn't ya wait, don't tell me

I know you kissed a lot of girls,

Told a lot of lies

Booked a few odds but listen:

I ain't feel none of that last night when you held me

I just wanna believe that you

Met a girl who felt something different

I believe that girl met you

And saw someone who had some beautiful intentions

So let's just take a chance

Take a hand, take a leap

And do what most won't understand

(Let's just take a chance)

Who knows where we'll end

I'll be down if you tell me you can't

I'll learn to change my plans

I'm willing to take that chance

(Just take a chance)

[Wale:]

Uh, settle down queen

I've been begging you forever just for now queen

When the time's right

Get your mind right

We will tell our whole town this is our thing

But for now queen

This is our week

I could fully understand if you got late

When the time's right

Get my mind right

I'm a get these dummy [?] form around me

Got a past I'm ashamed of

Past full of danger

I can give you everything but a last name is sacred

All I ask is a chance that you take
And be safe with yourself and never lack any patience
I'm a young wild bull who been through a lot
Use them [?] get summer hot
I could stop, I take them down
But I take you out
It's funny how you get the ring and they always get the box

[Monica:]

So let's just take a chance
Take a hand, take a leap
And do what most won't understand
(Let's just take a chance)
Who knows where we'll end
I'll be down if you tell me you can't
I'm willing to change my plans
I'm a pay attention to the obvious
So there's no need for you to mention
Your past I'm ready
So let's just take a chance
Take a hand, take a leap
And do what most won't understand
(Let's just take a chance)
Who knows where we'll end
I'll be down if you tell me you can't
I'm willing to change my plans
I'm willing to take that chance
So let's take a chance
