

SOJU (feat. 2 Chainz)

Jay Park

I'm with Cha Cha
I'm with woogie
We get litty
We yeah.It's the end of the day
All my bills paid
So we bout to get lit off the soju
It's the end of the day
All my bills paid
So we bout to get lit off the soju
It's the end of the day
All my bills paid
So we bout to get lit off the soju
It's the end of the day
All my bills paid
So we bout to get lit off the soju
Pour me up a shot
We don't need no rocks
You been living forward
But not like this i bet
You fucking with the best
Put you to the test
This ain't' that vodka or henny
I'm bout to drink plenty to give you better sex
I want them green bottles
Them mean models
I need that Jackson [?]
[?]...them good apples
Mix it with beer or straight up
This shit is money, no pay cuts
Smooth out the glass, lay em
Terry squad, we way up
We up
Dusse and Ace, I love it
But only tonight, yeah
Hove and I, we livin that soju jet life
The homie in law getting married soon
Come to seoul for your honeymoon
Karaoke from room to room
Oh, lord
It's the end of the day
All my bills paid
So we bout to get lit off the soju

It's the end of the day
All my bills paid
So we bout to get lit off the soju
It's the end of the day
All my bills paid
So we bout to get lit off the soju
It's the end of the day
All my bills paid
So we bout to get lit off the soju
Shorty got my heart
She my valentine
Say she want the G's
Straight from [?]
I've been on this bus
Bars out the trash
Bought my x out
Call it taking out the trash
Oh, i had to laugh
Champagne baths
Guaranteed to last
Tripping to my cab
Socks so designer
Every single timer
We just steal peoples girl
Til they pick me out of line
Hustling just got it out of the field
Anything to get pay my momma bills
Anything to let you know its real
Underground bitch i'm trill
Got my name tatted on the spine
Chain looking like alkaline
I could put a leg on a mine
Ain't no recollection overtime
We getting drunk
Lit as fuck
Show me love
We getting drunk, yeah
Lit as fuck, yeah
[?], yeah
Show me love, yeah
End of the day
All my bills paid
So we bout to get lit off the soju
It's the end of the day
All my bills paid
So we bout to get lit off the soju
