

In the Lobby

Iggy Pop

Vacancy chain in the lobby
An ocean of bodies and then there's me
And I hope I'm not losing my life tonight
And it's all about the hang
And it's all about the crowd that hangs
And it's all about the Somebody is losing their life tonight
I followed my shadow and it led me here
What is the problem if I disappear?
And I hope I'm not losing my life tonight
And it's all about the edge
And it's all about the dancing kids
And it's all about the sex
And it's all about done
Yeah
I follow my shadow tonight
Out of the light
Yeah
I follow my shadow tonight
Out of the light
My shadow is walking in front of me
The longer the night
The shorter the leash
And it's a long long night
I hope I'm not losing my life tonight
And it's all about the kicks
And it's all about the dancing pricks
And it's all about the clowns
And it's all about done
Yeah
I follow my shadow tonight
Out of the light
Yeah
I follow my shadow tonight
Out of the light
Out of the light
Get out of sight
Out of the light
Get out tonight
Out of the light
Get out of sight
Out of the light
Get out tonight
