

# I'll Be Waiting (Talisman)

W.E.T.

If you need somebody, call out my name  
I'll be waiting right by your side tonight I've heard the words out on the street  
Your love is much in danger  
Though I can hear the tears of pain  
I can see the cries of anger Oh oh oh oh, if U let me know  
We can chase the nite away, yeah If you need somebody, call out my name  
I'll be waiting right by your side  
Everything changes, but love will remain  
I'm awaiting right by your side tonight  
Inside & outside & upside down  
This merry-go-round you give in 4  
Tell me the reasons why you go back  
Back to the same old story Oh oh oh oh, I can be the 1  
Dance & romance until the morning lit If you need somebody, call out my name  
I'll be waiting right by your side  
Everything changes, but love will remain  
I'm awaiting right by your side tonight We can chase the nite away If you need somebody, call  
out my name  
I'll be waiting right by your side  
Everything changes, but love will remain  
I'm awaiting...So...  
If you need somebody, call out my name  
I'll be waiting right by your side  
Everything changes, but love will remain  
I'm awaiting right by your side tonight, yeah, yeah, yeah, yeah...
