

Conquered My Heart

[Tyrone Taylor](#)

You came and you conquered my heart
You came and you conquered my heart You never stopped to think, if I wanted you or not
You came with you goody goody love, ah, you did a lot
You stopped my world, from falling down
Whether you know it or not, baby
I want you around You came and you conquered my heart
You came and you conquered my heart Hmm baby
Say now that I'm happy
To have a girl like you, oh
You stopped my world, from falling down
Whether you know it or not
Sweet baby I want you around
Cause you
You came and you conquered my heart
You came and you conquered my heart I can say now, that I'm lucky
To have a girl like you, oh oh
You stopped my tears from falling down
Oh baby you know I can't live my life without you around You came and you conquered my
heart
You came and you conquered my heart What can I do?
You came and you conquered my heart
You Speak stuff that is true
How can a man run away baby from sweet sweet lover like you
You came, you came, you came
You came and you conquered my heart
You came and you conquered my heart
Conquered my heart
