

# Moment of Peace

## Gregorian

Mm Mm Mm Mm Mm  
Mm Mm Mm Mm Mm In moment of peace Ah Ah Ah Ah Ah  
Ah Ah Ah Ah Ah Come now, come by our side  
Into a place where you can hide  
We are the sunshine  
Rest your Soul here  
And you'll find  
We are the energy  
We give the world to thee  
Hold up your heart now  
We will ease pain from your brow In the world without danger  
When destruction is near  
You can come with us here  
When the people are strangers  
We will rest here and be  
In a moment of peace In the world without danger  
When destruction is near  
You can come with us here When the people are strangers  
We will rest here and be  
In a moment of peace Light up the dark below  
See through the stars  
Reach to the earth's flow  
Drift into the joy of our hearts  
Unleash the energy  
Taste of the wine  
Drink as a Soul  
That knows now, power divine  
In the world without danger  
When destruction is near  
You can come with us here  
When the people are strangers  
We will rest here and be  
In a moment of peace  
In the world without danger  
When destruction is near  
You can come with us here  
When the people are strangers  
We will rest here and be  
In a moment of peace  
In a moment of peace
