

# Symptom Unknown

Maxwell

There's an ocean  
Drained of all it's been  
Took a bath  
But just can't get clean  
Wonder when you'll show  
If not everything is in between  
You and I were s'posed to grow old  
Guess it was a symptom unknown  
There's a power that knows just how you feel  
We were prone to feel a love not real, oh, yeah  
Wonder when you'll show  
If not I'm gonna feel what I feel  
You and I were s'pose to grow old  
It was your symptom unknown  
Unknown unknown  
Blame it on them things untold  
Unknown unknown  
You and I were suppose to grow old  
Guess it was a symptom unknown  
Guess it was them things that you hold  
Guess it was the way you were cold  
I guess it was yeah  
There's a child that used to smile  
There's a man that used to feel as if, whole  
Oh why  
What am I suppose to do without you close  
Who am I suppose to try to toast  
What am I suppose to do  
If you don't show me  
If you don't show me
