Kem

You're listening to Love 101  
From the top of the world  
Chemistry Hey girl, it's a matter of fact  
I think that you amazingly fit  
The fundamental parts of me and girl  
We should never look back  
I only want the best for you  
And I respect everything that you been through Sugar, that's the way it should be  
I'll never try to change who you are  
Take a look around you  
Tell me baby can't you see  
That I loved you right from the start?  
You wear the crown in my heart  
Girl, and you ain't gotta lie to me (You don't have to lie to me)  
Girl, and you ain't gotta lie to me (Girl, you ain't gotta lie to me)  
I'm ready to love you babe (I'm ready to love you babe)  
You don't have to change a thing  
You don't have to change a thing  
I already got the ring  
I'm ready to wife you girl So baby just roll with me  
Let the wind hit your back  
Step into the sun  
What's done is done and it's over when it's over baby  
Why don't we kick back and relax?  
There's nothing over our shoulder  
I give Him praise everyday that I can hold you  
Baby, that's the way it should be  
Mama, you're my shining star  
Girl, I don't wanna live without you  
There's nobody better in the world for me  
And I love you just the way you are
