

# Halo

## All That Remains

There is no judgement day  
No jury to abide  
Our lives are worlds away  
The distance makes you blind So you think you know the way that I should live my life  
I know a better way  
I swear I know a better way  
I'll smash your crown before I give you power to decide  
I know a better way  
I swear I know a better way  
You don't get to say what I'm made of  
You don't give me a halo  
Don't give me a halo There is no sacred way  
No rules to live my life  
No man or deity can tell me wrong from right So you think you know the way that I should live  
my life  
I know a better way  
I swear I know a better way  
I'll smash your crown before I give you power to decide  
I know a better way  
I swear I know a better way You don't get to say what I'm made of  
You don't give me a halo  
Don't give me a halo You don't  
You don't  
You don't get to say what I'm made of  
You don't give me a halo  
Don't give me a halo  
You don't get to say what I'm made of  
You don't give me a halo  
Don't give me a halo
