

How Does It Feel

Keri Hilson

[Timbaland]

Put your hands up in the sky and wave and wave (come on yall)

Put your hands up in the sky and wave and wave

Come on and 2 step (6x)

Come On

Keri Talk I'm starting to think I need space

Now every time I go out you all in my face

Soon as I hit the door

Why you gotta be actin' so insecure

Where I been, Who I was with

Boy your stressing me out with this,

Watch this

Relationship is supposed to revolve around trust right (right)

Lets take it back a few months like (like)

What about the other chick

That you was kicking it with

And I'm getting sick of it

Damn it it's a shame, a sin

You about to get a dose of your medicine

You couldn't even handle it

If the shoe is on the other foot now So what you gone do when I don't give you that last chance

And how you gone act when you see me in the back wit a new man

And what's it gone be when you gone see me and him holding hands

I bet ya give a damn then You can keep on feeling yourself

Imma be with somebody else

Better keep it real with yourself

Before ya end up by yourself

You can keep on feeling yourself

Imma be with somebody else

Better keep it real with yourself

Before ya end up by yourself

How does it feel? Now your threatening to leave me so what

Ordinarily I would be biting my tongue but, Naw

You couldn't picture me gone

Thought I'd be sitting at home while you was doing the wrong

You know its messing wit my head

Thoughts of her up in my bed

And if I did what you did to me

How would it be

If the shoe is on the other foot now I could wild out take the knuckle route but I got class

So what you gone do when I pimp it up a brand new romance

When what you have, turns into what you had

I bet you give a damn then You can keep on feeling yourself
Imma be with somebody else
Better keep it real with yourself
Before ya end up by yourself You can keep on feeling yourself
Imma be wit somebody else
Better keep it real with yourself
Before ya end up by yourself Baby (how does it feel)
Do you know what I go through
Sitting up breathing for you
If that was you, you'd be gone
Baby ya sleeping on me You can keep on feeling yourself
Imma be wit somebody else
Better keep it real with yourself
Before ya end up by yourself You can keep on feeling yourself
Imma be wit somebody else
Better keep it real with yourself
Before ya end up by yourself How does it feel?
How does it feel?
How does it feel?
