

# No Reason To Run

## Cold War Kids

In the mirror I see my face  
I've got to let this go  
What if all my decisions are fear based?  
What if I lose control?  
I'm asking for an intervention  
I've tried to fly solo  
It's not a question of whether I will fall, it's how hard I hit the floor  
When did I feel it?  
How did I know that you were the one?  
I am defeated  
I got no reason to run, no reason to run  
I wanna be part of the movement  
Somebody sign me up  
Have you ever felt so authentic?  
Like you belong in the club  
Freedom is overrated  
I'm not gonna come undone  
I can't lose my motivation  
Laying all day in the sun  
When did I feel it?  
How did I know that you were the one?  
I am defeated  
I got no reason to run, no reason to run  
Don't wanna hear your praise  
Don't reminisce on glory days  
Fight the tears, yeah I'm okay  
I'm like a cro-magnon walking out of my cave  
I have evolved like a fish growing legs  
Woke like a lightbulb clicked in my brain  
I am changed, yeah I have changed  
I got you  
And I'm never gonna be the same  
When did I feel it? (When did I feel it?)  
How did I know that you were the one?  
I am defeated (I am defeated)  
I got no reason to run, no reason to run  
Stay by my side  
No reason to run  
So in love, so alive  
No reason to run  
Stay by my side  
No reason to run  
So in love, so alive  
No reason to run  
Stay by my side  
No reason to run

So in love, so alive  
I got no reason to run  
Stay by my side  
No, no reason to run  
So in love, so alive  
No reason to run
