

# Fix (NOW What's Next!)

Chris Lane

Hey girl, you know what you've been missing?  
me, me, yeah  
Hey girl, whoever you've been kissing  
it ain't me, me  
I got that love medicinal  
I'll make you feel invincible  
I'm more than recreational I'm what you need  
I'll be your slow grind, that late night, your Walter White high  
I'll be your first time, that's so right  
have you falling in love at the end of the night  
That good eat, that long drink, that sugar on your lips  
That favorite habit, you gotta have it you can't quit  
I got your fix  
I'll be the high that never lets you down (I've got your fix)  
The one you crave when no one's around  
I'll pick you up and never let you go (I got your fix) Never let you go, hey hey  
Hey girl, You don't get you then never  
So leave, oh just leave  
Listen, baby baby baby baby girl  
Let me make you feel better  
Please, please, please, please I'm what you need  
I'll be your slow grind, that late night, your Walter White high  
I'll be your first time, that's so right  
Get you falling in love at the end of the night  
That good eat, that long drink, that sugar on your lips  
That favorite habit, you gotta have it you can't quit  
I got your fix  
I'll be the high that never lets you down  
The one you crave when no one's around  
I'll pick you up and never let you go (I got your fix) Never let you go, hey hey  
Yeah, Come on baby, yeah, oh oh oh  
I'll be the high that never lets you down The one you crave when no one is around  
I'll be your slow grind, that late night, your Walter White high  
I'll be your first time, that's so right  
have you falling in love at the end of the night  
That good eat, that long drink, that sugar on your lips  
That favorite habit, you gotta have it you can't quit  
I got your fix  
I'll be the high that never lets you down  
The one you crave when no one's around  
I'll pick you up and never let you go (I got your fix)

Never let you go, hey hey
