

# Just Can't Say It's Love

Frankie J

Girl you been kicking it with me constantly, for a while  
You just can't wait to hear those three little words  
Come from my mouth, yea yea yea I just can't tell you  
Or find the words for  
The way I feel about'cha  
I just can't be without'cha  
I wanna say it so bad but something keeps telling me no  
Contemplating, still debating  
Should I just let it go I just can't say it's love  
But you already know what's up  
I really can't put into words  
Baby you got to feel me  
And I hope you can hear me  
It's only you I'm thinkin of  
But still I just can't say it's love  
You probably think I'm runnin game  
But that ain't the case, I'm just not sure  
See I've made that mistake before  
Don't wanna hurt no more, babe  
I wanna take my time with you, yea I just can't tell you  
Or find the words for  
The way I feel about'cha  
I just can't be without'cha  
I wanna say it so bad but something keeps telling me no  
Contemplating, still debating  
Should I just let it go I just can't say it's love  
But you already know what's up  
I really can't put into words  
Baby you got to feel me  
And I hope you can hear me  
It's only you I'm thinkin of  
But still I just can't say it's love  
No matter if I wait  
This still could be fate  
Girl I get so frustrated  
My mind, my heart can't take it  
Just like the sun had the moon  
Baby I want you  
But I just can't say I love you
