

Bright Side of Life (feat. Junior Reid)

Rebelution

Don't trip, you know I'm always by your side
You'll be fine for the ride
Just be calm, take a breath and don't cry
(Oh my, my) Look on the bright side Rise up, now make an impact
Now get you bags packed
Think about your life, the thrill, don't you cry
(Oh my, my) Look on the bright side of life Somebody told me everything's alright
That life's too short to be afraid
Which' leading up to what I wanna' say
Living should be givin' in a away
Contemplating every single day
And learn, and so we educate and be positive
It is what is, com' on, set examples for the kids
No, I don't wanna' scare you, no I don't
It's time you be a role-model, so open up
Somebody told me everything's alright
That life's too short to be afraid
Which' leading up to what I wanna' say
Living should be givin' in a away
Contemplating every single day
And learn, and so we educate and be positive
It is what is, com' on, set examples for the kids
No, I don't wanna' scare you, no I don't
It's time you be a role-model, so...
No, I don't wanna' scare you, no I don't
It's time you be a role-model, so open up Don't trip, you know I'm always by your side
You'll be fine for the ride
Just be calm, take a breath and don't cry
(Oh my, my) Look on the bright side
Rise up, now make an impact
Now get you bags packed
Think about your life, the thrill, don't you cry
(Oh my, my) Look on the bright side Be kind, now keep a smile, keep your head up
And try to find a friend or a child
And encourage their life
(Oh my. my) Look on the bright side
Rise up, now make an impact
Now get you bags packed
Think about your life, the thrill, don't you cry
(Oh my, my) Look on the bright side of life
