

Hero (feat. Rob Melamed)

The Next Step

Let's shut it down
There on the ground
We run this town town
Don't mess around
It's your F.I.R.E burning me
Try not to make a scene
Makes me wanna scream oh whoa
It's your H.E.A.T feeling me off for everyone one to see
In the little space between us Whoa Whoa Whoa Whoa Whoa
I am your hero take you in my arms
I will send away the pain
I am your Savior gonna pull you close as we dance the night away
I am your hero take you in my arms
I will send away the pain
I am your Savior gonna hold you close as we dance the night away
I got my crew
And you got yours
But lets go along long
And when I said it
You were gone
It's your F.I.R.E burning me
Try not to make a scene
Make me wanna scream oh
It's your H.E.A.T feeling me
Off for everyone one to see
In the little space between OH Whoa Whoa Whoa Whoa
I am your hero take you in my arms
I will send away the pain
I am your Savior gonna pull you close as we dance the night away
I am your hero take you in my arms
I will send away the pain
I am your Savior gonna hold you close as we dance the night away
It was something I heard you say
Then you were gone
Like a drop in the ocean
No commotion at all
I am your hero take you in my arms
I will send away the pain
I am your Savior gonna pull you close as we dance the night away
I am your hero take you in my arms
I will send away the pain

I am your Savior gonna hold you close as we dance the night away
