

Great Unknown

X Ambassadors

I'll follow you anywhere
Where you wanna go, yeah, I don't care
Let the river drown all our fears If the pouring rain washes you away
I'll go with you, babe 'Cause if you fall
I will follow you into the great unknown
Where wild winds blow
If you lose it all
You know I'll be there when everybody's gone
You're not alone
'Cause I'll follow you, oh
Where the wild winds blow
So don't you disappear
'Cause this road ain't so lonely when you're near
There's no going back from here
If your sky turns grey, and you're losing faith
I'm with you all the way 'Cause if you fall
I will follow you into the great unknown
Where wild winds blow
If you lose it all
You know I'll be there when everybody's gone
You're not alone
'Cause I'll follow you, oh
Where the wild winds blow Where the wild winds blow
Where the wild winds blow
Where the wild winds blow, yeah
'Cause if you fall
I will follow you into the great unknown
Where wild winds blow
If you lose it all
You know I'll be there when everybody's gone
You're not alone
'Cause I'll follow you, oh
Where the wild winds blow Where the wild winds blow
Oh, where the wild winds blow
Where the wild winds blow, yeah
