

# Shapeless & Gone

## Porcelain Raft

In a strange kind of way, lifeless landscapes have so much to say  
And it's hard to sleep tonight, in my head buildings are collapsing  
I've never seen the desert before, to be close to nothing Shapeless and gone... So good to know  
you are out there, so good to know you still care  
And the light seems more bright, even the air feels like the first time  
And i feel shapeless and gone... so close to nothing. Shapeless and gone... I've never seen the  
desert before, to be so close to nothing
