

Delicious (feat. Tommy Cash)

Charli XCX

E-e-e-e-X-C-X

Charli, Cash

Cash, cash, cash, cash, cash

I always think about you when I'm high

I wanna hear you whisper on the telephone, yeah

You call me up and then I'm satisfied

I touch myself and then I'm not alone no more

I always think about you when I'm high

I wanna hear you whisper on the telephone, yeah

You call me up and then I'm satisfied

Do somethin' special to me

Wanna take your picture, you're so delicious

Gimme icy vision, the head so clever

Can you keep me with ya?

Gotta touch your treasure, icy like November

The vicious kingdom

Wanna take your picture, you're so delicious

Like the architecture, I won't forget you

Got me in the bathroom, got me in the mirror

Puttin' on the pressure

(E-e-X-C-X)

I always think about you when I'm high

I wanna hear you whisper on the telephone, yeah

You call me up and then I'm satisfied

I touch myself and then I'm not alone no more

I always think about you when I'm high

I wanna hear you whisper on the telephone, yeah

You call me up and then I'm satisfied

Do somethin' special to me

Oh

There's no wifi in forest

I found a better connection (Connect)

No mirrors nearby, but I see a better reflection

I was fucked by the nature, we didn't use protection

Made a lot of trees, they are now in a book section

No cameras, no lights, but a lot of action (Flash)

Yeah, Summer turnin' Winter, c'mon little mama Jackson

Slow like water, no Beats by Dre, but beats by your father

I always think about you when I'm high, yeah, yeah

I wanna hear you whisper on the telephone, yeah, yeah

You call me up then I'm satisfied, yeah, yeah

Touch myself then I'm not alone, yeah

I always think about you when I'm high, high, high, high
I wanna hear you whisper on the telephone, yeah
You call me up and I'm satis-satisfied, yeah, ye-
Boom clap, the sound of my heart
Hello?
Tell it to me, do it straightforward
Run it up and then we fast forward
Tint the windows on the Range Rover
Drive it in like you're the best chauffeur
Switch it up, bipolar
Colorado, how you take over
Got an angel, got me real closer
Running it just like a halo, yeah
Never let me go, never let me go, no
Want a little more, when it rains, it pours, yeah
I'ma care for you, run it up and then we fast forward
Leave a message here, record on, yeah
Yeah

I always think about you when I'm high (When I'm high)
I wanna hear you whisper on the telephone, yeah (Tele-tele)
You call me up and then I'm satisfied
I touch myself and then I'm not alone no more (No more)
I always think about you when I'm high (When I'm high)
I wanna hear you whisper on the telephone, yeah
You call me up and then I'm satisfied
I touch myself and then I'm not alone no more
I always think about you when I'm high (When I'm high)
I wanna hear you whisper on the telephone, yeah
You call me up and then I'm satisfied
I touch myself and then I'm not alone no more
I always think about you when I'm high
I wanna hear you whisper on the telephone, yeah
You call me up and then I'm satisfied
Do somethin' special to me
