

# Empress

## Tribal Seeds

She was so far from my yard  
Out in the city  
Where the sinners they mob  
To fill up their needs  
If you open your heart  
You'll feel more pity  
If you open a lot  
They take you for weak  
She was an unfazed, unscathed, another dreadlock daughter  
On a mission, yea she living for a cause  
Travelled through the desert  
Travelled through the scorcher  
Just to hear of Solomon's wisdom  
Mesmerized by what the voyage found  
Laid eyes on the mythical kingdom  
Hearing of what they couldn't understand, no  
Glory of Jerusalem  
She was so far from my yard  
Now she stands before the wisest man  
So far from my yard  
To fulfill her role in the covenant  
She got an empress fire  
Invited to her empire  
From your deepest desire  
To all universe conspire  
Got an empress fire  
Invited to her empire  
From your deepest desire  
To all universe conspire Through the night  
Starlight reveals a new sign coming  
As we arise  
Uplift me a world with a new day dawning  
Jah fire burning, fire burning  
While all the wicked discerning  
Fire burning, fire burning  
Sight of the queen is returning  
So build more wisdom so the youth can be brought up right  
Not this foolish political leadership fight  
Wickedness they try to repel in all their might  
The evil forces abroad  
She was so far from my yard  
Now she stand before the wisest one

So far from my yard  
To fulfill her role in the covenant  
She got an empress fire  
Invited to her empire  
From your deepest desire  
To all universe conspire  
Got an empress fire  
Invited to her empire  
From your deepest desire  
To all universe conspire  
She got an empress fire  
Invited to her empire  
From your deepest desire  
To all universe conspire  
Got an empress fire  
Invited to her empire  
From your deepest desire  
To all universe conspire
