

Blood Brother

Zeds Dead, Reija Lee & Diskord

Years go, limit some once fast
Swallowing the past
Making something last I've seen you at your lowest of low
Watching your demons grow
Struggle you won't show Maybe I got plans for you
And you take care of me
My blood brother, fight for me Maybe I got plans for you
That you cannot see
My blood brother, fight for me Fight for me
Keeping all our fears at bay
We're still better off this way
That's the cowardice in me But we keep building everything that breaks
As our constitution shakes
Their efforts to relate Maybe I got plans for you
And you take care of me
My blood brother, fight for me Maybe I got plans for you
That you cannot see
My blood brother, fight for me Fight for me
Fight for me Maybe I got plans for you
And you take care of me
My blood brother, fight for me
Maybe I got plans for you
That you cannot see
My blood brother, fight for me Fight for me
Fight for me
