

# 10,000 Weight in Gold

## The Head and the Heart

I was burned out and lost,  
In the dusty bowl of an abandoned lot  
And the night time was the worst  
Shows ya all the things you lost There's no light in here now  
There's no light in here now If you take the kids and go  
I can't blame ya for the things ya know  
And when I'm out there on the road  
I think of you and all those kids at home  
There's no light in here now  
There's no light in here now  
10, 000 weight on gold, never feels like treasure 'til ya lose it all  
Woohoo-ooo, woohoo-ooo, woohoo-ooo  
Well I grab my bags for the road (woohoo-ooo)  
I grab my hat 'cause it's time yeah this time is marching on (woohoo-ooo)  
Well if you see me out on the road (woohoo-ooo)  
My bags are packed 'cause it time (woohoo-ooo) yeah it's time is marching on  
There's no light in here now  
There's no light in here now  
I was burned out and lost  
(There's no light in here now)  
I was burned out and lost  
(There's no light in here now)  
And the nighttime was the worst  
(There's no light in here now)  
I was burned out and lost  
Wooo-ooo-oo-oo
