

# Whirlwind

## Dispatch

A whirlwind came into my life and he tried to rescue me  
will you come, will you go  
will you tell me seriously Twisting burning, my thoughts turning, back to you again  
Sweet thing, take me to the end  
You'd better dig and take a look inside yourself So the story goes, and so I've heard it said,  
that you left your land, to trade for a place, so far away,  
so out of date, that only you could understand  
And at the ceiling of my feeling, backed up against the wall,  
Sweet thing, you know I'd fall in line  
You'd better dig and take a look inside yourself  
She wants to be free  
I want to know  
She wants to be free  
I want to know  
yeah A whirlwind came into my life and he tried to rescue me  
will you come, will you go  
will you tell seriously Twisting burning, my thoughts turning, back to you again  
Sweet thing, take me to the end  
She wants to be free  
I want to know  
She wants to be free  
I want to know  
yeah (uh huh yeah yeah)
