

Wrong

Motograter

I hear voices deep within me
Finding out I'm not so strong
Sometimes I don't think so clearly
Get the feeling something's wrongWrong
Got it wrong
Always wrong
Something's wrong
Infectious
A scab unto the world
It seems that my whole life's been a farce
Wishing on the stars
I'm just a poster for what we shouldn't be
I put your whole world in a noose
On the surface I seem normal
Everything's as it should be
Farther down though I'm so ugly
Something you won't ever seeWrong
Got it wrong
Always wrong
Something's wrong
Infectious
A scab unto the world
It seems that my whole life's been a farce
Wishing on the stars
I'm just a poster for what you shouldn't be
I put the whole world in a noosePlagued with sickness
Stained from inside out
Lately I feel so healthy
Get the feeling something's wrongWrong
Got it wrong
Always wrong
Something's wrong
Infectious
A scab unto the world
It seems that my whole life's been a farce
Wishing on the stars
You're just a poster for what I shouldn't be
You put this whole world in a noose
