

# Heart of Stone

Dave Stewart

I bought your record in New York City  
discorama down on Union Square  
I must have played it a million times over  
I'd close my eyes imagine you were there  
I really dig the clothes you wear  
I only wish you could be my baby  
I wanna read about it  
do you think we could have an affair  
Maybe your heart is made of stone  
maybe I'm just too blind to see  
maybe your heart is made of stone  
maybe I'm just too blind to see  
Two weeks in Electric Lady Land  
two weeks and that's all for me  
I could be lucky and get off lightly  
with a broken nose and the third degree  
She said I really dig disco music  
and if you want to be my baby  
we'd better talk about it  
maybe then we could have an affair  
Maybe your heart is made of stone  
maybe I'm just too blind to see  
maybe your heart is made of stone  
maybe I'm just too blind to see  
I wanna drive east coast to west coast  
turn up the radio and set myself free  
don't wanna talk about it  
you and me we should have an affair  
Maybe your heart is made of stone  
maybe I'm just too blind to see  
maybe your heart is made of stone  
maybe I'm just too blind to see  
Maybe your heart is made of stone  
(maybe your heart is)  
maybe I'm just too blind to see  
(made of stone)  
maybe your heart is made of stone  
(maybe your heart is)  
maybe I'm just too blind to see  
(made of stone)
