

# The Next Best American Record

## Lana Del Rey

[Verse 1]

My baby used to dance underneath my architecture  
To the Houses of the Holy, smokin' on them cigarettes  
My baby used to dance underneath my architecture

He was cool as heck

He was cool as heck[Pre-Chorus]

And we were so obsessed with writing the next best American record

That we give all we had 'til the time we got to bed

'Cause we knew we could

We were so obsessed with writing the next best American record

'Cause we were just that good

It was just that good

[Chorus]

Whatever's on tonight, I just wanna party with you

Topanga's hot tonight, I'm taking off my bathing suit

You made me feel like there's something that I never knew

I wanted[Verse 2]

My baby used to dance underneath my architecture

He was '70s in spirit, '90s in his frame of mind

My baby used to dance underneath my architecture

We lost track of space

We lost track of time[Pre-Chorus]

And we were so obsessed with writing the next best American record

That we give all we had 'til the time we got to bed

'Cause we knew we could

We were so obsessed with writing the next best American record

'Cause we were just that good

It was just that good

[Chorus - Variation]

Whatever's on tonight, I just wanna party with you

Topanga's hot tonight, I'm taking off my bathing suit

You made me feel like there's something that I never knew

I wanted

We play the Eagles down in Malibu and I want it[Bridge]

It's you, all the roads lead to you

Everything I want and do, all the things that I say

It's true, all the roads lead to you

Like the 405 I drive through

Every night and every day

I see you for who you really are

Why the thousands of girls love

The way Bill plays guitar[Chorus - Variation]

Whatever's on tonight, I just wanna party with you  
Topanga's hot tonight, I'm taking off my bathing suit  
You made me feel like there's something that I never knew  
I wanted  
We play the Eagles down in Malibu and I want it  
There's something that I never knew I wanted
