

My Friend

Tristram

In the wind I hear my name
With the ones, starting the games
Call me now, 'cause I can barely breathe
Ohh
I can feel you chanting lively
I can feel that music in me
We were born just to believe And when it's over
We can be together
Venture to the world inside
I could see in deeper
I could see in clearer
I'll never be afraid to die again
I'll always be there for you my friend
After all that we've been through
Will this light lead me to you
I can't stay here one more day
I swear to you I'm not afraid
Through the wind chimes, through the bells
I would carry you through hell
In the wind I hear my name
With the ones, starting the games
Call me now, 'cause I can barely breathe
Ohh
I can feel you chanting lively
I can feel that music in me
We were born just to believe
