

Skyline

[Brent Faiyaz](#)

Intro

Do you know what makes this world go 'round?

Around

Do you know what makes this world go 'round?

Around

Think it through

What it means to you

And everything you do

Don't affect just you, oh

I can't help but feel like I don't give a fuck

Might just take this shit and blow it up

It's no wonder I feel stuck

Fuck what set you bang, what hood you claim

We all come from the same

And I don't know if it'll change

Chorus

Do you know what makes this world go 'round?

Around

Do you know what makes this world go 'round?

Around
