

# Number One

## Tuxedo

When I met you last night baby, you looked oh so lovely  
I wondered if got to know ya, if you might be the one for me  
Next time you're feelin' kinda lonely  
Just pick up the phone, and give me a call  
And you can be my special lady  
and I promise baby, we can have it all 'Cause I-I-I have never met a girl  
Quite like you in the whole wide world  
Uuh because,  
You're number one, second to none  
You're number one, second to none  
You're number one, second to none  
You're number one, second to none, yeah  
OUh, now that we got our thing in motion  
Never gonna slow it down  
I'll give you all my devotion,  
'Till we're six feet underground  
'Cause you give me all the loving,  
All the loving that a man can take  
And if you're feeling tire baby,  
Just lay back and I'll give you a taste 'Cause I-I-I have never met a girl  
Quite like you in the whole wide world  
Uuh because,  
You're number one, second to none  
You're number one, second to none  
You're number one, second to none  
You're number one, second to none, yeah  
Oooh and in the game of love, to steal my heart  
Girl you know you're burning up the charts  
You're rising to the top  
And in no time, you leave the other girls behind 'Cause I-I-I have never met a girl  
Quite like you in the whole wide world  
Uuh because,  
You're number one, second to none  
You're number one, second to none  
You're number one, second to none  
You're number one, second to none, yeah
