

Church (feat. Elijah Blake)

Far East Movement

See, I was raised by a preacher man
Who couldn't wrap my brain on religion
But I'll follow you through and through
My mother prayed for the difference
'Cause your touch is far from innocent
But I'll follow you through and through
River wide or valley low, no ocean deep
Baby, I'll be holding on
Give me something to believe
Just like church
There's devotion in you
You're just like
There's devotion in you
You're just like hallelujah
Baby ain't a sin I wouldn't do for you, church
I'll follow you through and through
Just like church Hallelujah
Baby ain't a sin I wouldn't do for you, church
I'll follow you through and through
Just like church See, I was raised by a preacher man
Who couldn't wrap my brain on religion
But I'll follow you through and through
My mother prayed for the difference
'Cause your touch is far from innocent
But I'll follow you through and through
River wide or valley low, no ocean deep
Baby, I'll be holding on
Give me something to believe
Just like church Hallelujah
Baby ain't a sin I wouldn't do for you, church
I'll follow you through and through
Just like church I heard 'em singing now hallelujah
Hallelujah
Hallelujah
Hallelujah Baby ain't a sin I wouldn't do for you
