People

Jonathan McReynolds

Shh
They are the best and the worst you've created
Loving and hating and opinionatedLoners in basements and those congregated
Deliver meFar from the peace, from ashore I was sinking
Deep in the ocean of thoughts they were thinking
Don't know what validation I was seeking
Deliver me fromPeople, people
When you said you could heal me from many things
Did you mean
People, people
Deliver me
'Cause I can't point 'em out
I won't say their names
I don't know the damage
Or which one to blame
It's just people, people
Deliver meShe was the reason I smiled in the morning
He took the last bit of joy I was storing
That's too much power for anything human
Deliver me fromPeople, people
I know you can heal me from many things
What about
People, people
Deliver me
'Cause I can't point 'em out
I won't say their names
I don't know the damage
Or which one to blame
It's just people, people
Deliver me, yeahThe hurt are hurting
And the broken are breaking (breaking)
And the ones who had their joy taken away
Are out here taking from otherPeople, people
People, people
Forgive these
People, people
Heal me from
People, peopleCrazy
People, people
Trolling
People, people
Self-righteous

People, people
Entitled
People, peopleHating, lying (people, people)
Disrespectful, forgive me when I'm one of those (people, people)
People, people
Deliver me
