

# Smother Me

Olivia Nelson

No shield  
To stop from what you're doing to me babe  
Nothing even matters if I got you with me babe  
Blissful love  
I'm vulnerable  
Only one who makes me feel this way  
Since you left your mark on me without a bruise  
The thrill of having so much to lose  
I'm foolish, so foolish  
But I can't get enough Smother me  
Baby I will be your only company, yeah  
Smother me  
Baby I will be your only company now  
Who cares if we move too fast?  
It's hard not to do when the chaser is you  
Came from out of the blue  
Making love as the sun sets  
I'm in ecstasy when you're next to me  
I'll let your love cover me Left your mark without a bruise  
The thrill of having so much to lose  
I feel at home when I'm with you  
I want your unprotected love  
Give me all your unprotected love  
I'm foolish, so foolish  
But I can't get enough Smother me  
Baby I will be your only company, yeah  
Smother me  
Baby I will be your only company now  
Smother me  
Baby I will be your only company, yeah  
Smother me  
Baby I will be your only company now
