

# Running Over (feat. Lil Dicky)

Justin Bieber

From the beginning it was ending  
We were emotionally pending  
Jeopardy, second guessing  
Got all the questions to my answers  
Keep running over  
Me with your loving  
I'm only right here for your consumption  
Keep running over  
Me with your loving  
Looking like it's turning into something  
Wednesday  
It felt like a Tuesday when you met me  
I remember it like it was yesterday  
You just said "Hello", I lost my sanity  
Thought you was looking through me  
Then you made me laugh with personality  
When you said goodbye that was a tragedy  
Had to get a lesson in anatomy  
You just ran me over  
Look out, watch out, got me on the defense  
Thought love at first sight was just a false pretense  
Took my hat off, made me pledge allegiance  
Everything was in divine sequence  
Keep running over  
Me with your loving  
I'm only right here for your consumption  
Keep running over  
Me with your loving  
Looking like it's turning into something  
Better than turning into nothing (Way-oh, way-oh)  
Ain't no interrupting this eruption (Way-oh, way-oh)(LD!)  
I believe in love  
Girl, you got my hopes all up  
When I left you, when I met you  
I called mom and told her 'bout it  
I got all up on your I.G. and was scrolling down for hours  
I got back to 2015 and you started looking young, so I stopped (Oh)  
Post intercourse when you walk by (Ass, ass, ass)  
More buns than a Shop Rite (Whoa)  
And you wanna sleep over my crib? Lemme go and get you a soft t-shirt, here (Soft-t)  
What are our kids gonna be like?  
What is your skin routine like?  
Girl, just run around bed with me  
I'll flirt with you all cleverly

I'll lock you down, Pat Beverley  
I'll kiss your breast so tenderly, wussup? (Breast)  
How are you so hot and so cute? (How?)  
I wanna make a language up with you  
You're already driving me crazy, so just Keep running over  
Me with your loving  
I'm only right here for your consumption  
Keep running over  
Me with your loving  
Looking like it's turning into something  
Better than turning into nothing (Way-oh, way-oh)  
Ain't no interrupting this eruption (Way-oh, way-oh)
