

Dead Man's Hand on You

Children of Bodom

Walked a long long way down there
Just to see, feel your glare
I wanna sleep just drift away
Mother Kali, just tuck me in, take me in Take me out
Heaven Earth and the Underworld
Give me the White, the Red, and Black
It's all I ask, that's what I need
Please come to me, I need to feed
If you let me love and be. true blue
I'll be more than just a dead man's hand on you
tell me lies won't be denied
Mother kali, will you be my bride It's all I want that's what I do
Love me one more time and I'll let you kill me to
If you let me love and be. true blue
I'll be more than just a dead man's hand on you
tell me lies won't be denied
Mother kali, will you be my bride It's all I want that's what I do
Love me one more time and I'll let you kill me to
