

Susan

The Goon Sax

Susan are you going to take the time
To tell me what's on your mind
I see you reading and that's fine
Me too
Why don't you look at me
The way I look at you
At all the things we used to do
I wish you'd still do them too Susan I follow all your rules
So do you have to go to the pool
Maybe you could spend some time with me too
I thought that you knew
Susan I'm worried too
All the little things I do
So you know I love you
Susan what are you thinking when you spend the night with Steve
Susan I know that you're drinking please talk to me
I don't want you to leave Susan I understand the reason you don't hold my hand
Nothing makes me feel as sad if you
Are telling me the truth
Do what you wanna do
I just wish I knew
If you still love me too
Susan what are you thinking when you spend the night with Steve
Susan I know you're drinking please talk to me
I don't want you to leave
Susan what are you thinking when Steve's lying next to you
He can tell you anything he doesn't mean it
As much as I do
