

# The Disease (Live in Saalfeld, 21. December 2012)

## Heaven Shall Burn

you all have seen the suffering  
you all knew it, you all know it  
but your eyes lie to your heart  
morality corrupted and profit conductedborn in a factory  
cold steel machineries  
and driven by this greed - you're breeding this disease  
infected by this deadness - you're breeding this diseasebut I will not accept your carelessness  
mass production - mass destruction  
you will face relentless changes!
