

# Thinking of Someone Else

## Spymob

1 2 3 4 I'm lyin' on the couch  
With my little toe in a splint  
Smashed it on a corner  
While reachin' for my instrument Talk shows get depressin'  
And my eyes are too tired to read  
Stranded in my house  
Starin' outside helplessly Thinkin' of someone else  
Longin' for that special person  
Who always took good care of me Hold me mother  
Cuddle me closely  
Hold me mother  
Talk to me softly  
Lookin' at the phone  
That is well within my reach  
Wonderin' why I'm likin'  
Someone's self sufficiency Well it's so high at this time  
I should really try to act my age  
Yet her words always got me on track  
In my younger days Thinkin' of someone else  
Longin' for that special person  
Who always took good care of me  
Stayed up with me all night long  
When I was a child with the flu  
Never short on sympathy Hold me mother  
Cuddle me closely  
Hold me mother  
Talk to me softly  
Always helped me  
To see the brighter side  
Helped me see that everything  
Would turn out right Lyin' on the couch  
Watchin' doubts with no aspirin  
Cordless on the coffee table  
Rings on at any instance She tells me that she's worried  
Do I have enough to eat?  
I'm pretty sure that I just started  
Healing rapidly Thinkin' of someone else  
Longin' for that special person  
Who always took good care of me Hold me mother  
Cuddle me closely  
Hold me mother  
Talk to me softly Hold me mother

Cuddle me closely  
Hold me mother  
Talk to me softly
