

Dream In a Dream

TEN

I'm staying up
I don't wanna come
down from your love
We'll get lost together
Let me flow
Don't ever let me come
down from your love
From your love
From your love
I'm staying up
I don't wanna come
down from your love
We'll get lost together
Let me flow
Don't ever let me come
down from your love
From your love
From your love
I'm staying up
I don't wanna come
down from your love
We'll get lost together
Let me flow
Don't ever let me come
down from your love
From your love
From your love
