

Baby Just Let Go

Drew Fish Band

Everyone can see that you're all wound up inside
worried bout the ins and outs not giving yourself some time
burning that candle from both ends 'till there's nothing left at all
slow down take a breath
baby, just fall baby, just let go
I'm right here
you have nothing to fear
you can just fall into me
I swear I'll never leave
just let go
just let go
baby, there ain't nothing that can't wait 'till tomorrow
so let's just lie here in this bed and let the moment pass real slow
just close your eyes and get lost for the moment
escape this world for a little while
you know you deserve it baby, just let go
I'm right here
you have nothing to fear
you can just fall into me
I swear I'll never leave
just let go
just let go time flies by
don't take it for granted
just slow down and stay
baby, just let go
I'm right here
you have nothing to fear
you can just fall into me
I swear I'll never leave
just let go
I'm right here
you have nothing to fear
you can just fall into me
I swear I'll never leave
just let go
just let go
