

Clutch (feat. Kiana Ledé)

Col3trane

Dead a discussion goin' round and round, like a rosary
Don't push me away, when you wanna be close to me
Think of all the times that you didn't wanna notice me
I'll get the roses from the corner store with the groceries Yeah, I know that you love me

Put no one above me
I work till the beat sham rock
Come home and feel lucky
I know I can be a nuisance
But I don't make excuses
I know what a lie is
Baby I know what the truth is
And I'll do anything for your trust
Always we fuck, but make love over lust
But I know that it's love with you
When you're close to me
That's clutch, uh
Yeah, that's clutch, oh, oh, oh Say somethin' like I'm never there for you but I've been from the
start

You push me away when you ready to fall apart
So I'll be pickin' up the pieces no matter where they are
You don't have to think twice, baby go with your heart
Yeah Yeah, I know that you love me

Put no one above me
I work till the beat sham rock
Come home and feel lucky
I know I can be a nuisance
But I don't make excuses
I know what a lie is
Baby I know what the truth is
And I'll do anything for your trust
Always we fuck, but make love over lust
But I know that it's love with you
When you close to me
That's clutch, uh
Yeah, that's clutch, oh, oh, oh After all the things I've seen, ain't much I believe
I don't even trust a bank, keep my money real close to me
I've been keepin' one eye open when I'm fast asleep
So you can rest easily when you next to me I know that you love me
Put no one above me
I work till the beat sham rock
Come home and feel lucky
I'ma tell him keep it honest (Keep it honest)

'Cause you can't be lookin' foolish
I know what a lie is
And we all know what the truth is And I'll do anything for your trust
Always we fuck, but make love over lust
But I know that it's love with you
When you close to me
That's clutch, uh, yeah
Yeah, that's clutch, oh, oh, oh (Oh woah)
